## CAPABILITIES STATEMENT

**Weatherford Group, Inc.** is a Service-Disabled Veteran-Owned Small Businesses (**SDVOB**) based in Florida. Our background and experience includes both Military and Law Enforcement. We have an extensive amount of Special Operations experience, as well as experience in Special Operations Aviation; providing mission planning, project management, budget estimate and control, project control and execution, high level Department of Defense and Department of State liaison and logistical control.

We specialize in training and support for U.S. and International clients. Weatherford Group primarily utilizes Special Operations Forces (SOF) while also having access to former US Government employees from multiple U.S. Federal Government Agencies including the CIA, DIA, FBI, DEA, ATF, TSA, DOS, and others. Weatherford Group understands our client support requirements can be altered by environmental, political, cultural, and financial circumstances and our goal is to provide alternatives that best fit our client's requirements.

Our professionals are well versed with military routine and procedures since they are primarily SOF veterans. We provide specialized personnel, on-the-ground project support, and dedicated corporate leadership. Weatherford Group begins each deployment with an initial thorough site assessment and country research, and provides essential support and personnel to guarantee our personnel focus on their mission. Our primary mission is to provide superior services allowing our clients to accomplish their objectives.

Our corporate experience encompasses broad ranges and levels of operational and business experience in varying environments. In order to gain a thorough understanding of our client's needs, we conduct an in depth assessment of specific client requirements. A comprehensive tailored program is designed to best accommodate cultural, environmental, geographical, and personnel requirements unique to each location and client need. After clearly identifying the scope of service and training needs, a streamlined staff and management team is assembled and prepared for deployment. Quality control measures are implemented throughout the entire process. We capitalize on the economic value preventive measures, instruction, and rapid recovery has on behalf of our clients. We focus on the minute details to ensure we exceed client expectations. We also respect the client's need for privacy and competent services.

Weatherford Group senior personnel have more than 55 years' experience in providing Personal Security. Weatherford Group's accomplishments include providing Personal Security for the U.S. Special Operations Command (USSOCOM) Commander while in the Middle East. Weatherford Group also has substantial experience providing Static and Facility Security, including providing Access Control for Ft. Campbell, KY where we were responsible for hiring and training more than 350 individuals. Significant accomplishments included implementing Access Control for Ft. Campbell, KY in under 60 days, ahead of schedule, allowing the Reserve Soldiers to go home for Christmas. Our security responsibilities have included day-to-day operations controlling access control and force protection measures at major Army installations, airfields, Heliports, and ammunition supply

points. Additionally, we have had responsibility for day-to-day operations of Mobile Vehicle and Cargo Inspection Systems (MVACIS), Gamma X-Ray machines for commercial vehicles and cargo entering military installations. The Weatherford Group President received a Commander's Certificate from the 101st Airborne Division Commanding General for his efforts. Finally, Weatherford Group was responsible for assessing US Embassy security and assisting in the development of Emergency Action Plans at multiple U.S. Embassies throughout the Middle East and Africa, which included National Level Agency coordination and information sharing.

Weatherford Group has deep-rooted connections to the Special Forces community from which we draw only the best personnel for assignments. We ensure a full understanding of customer/client requirements before beginning the vetting process for assigning personnel to security teams. We then exert considerable effort on matching an individual security expert's qualifications, training, and experience to specific customer/client needs. Such diligence virtually eliminates turnover and yields stable, reliable security support on a consistent basis.

The following comprehensive list of services provides ample evidence we have the experience and resources available to meet a wide spectrum of requirements:

## Service Solutions

**Acquisition Support.** We assist in providing procurement support with individuals who possess highly specialized procurement skills and knowledge involving complex agreements. We provide system acquisition and development and project support for all phases of the acquisition cycle, including program monitoring, documentation generation, review and analysis, technical management support, and requirements documentations services.

**Aviation Support Services:** We provide aviation support services at all levels. Our team has a military Special Operations Aviation background and is FAA certified and trained in providing the highest level of support available to meet your needs, regardless of how large or small they may be. We can provide both fixed wing and rotor wing services, including maintenance, flight training, medical evacuation and direct support operations. Our experienced and dedicated aviation department can also provide personnel and equipment ferry services into hostile areas, and hard to reach and high altitude areas, with Short Take-Off and Landing (STOL) capable aircraft.

**Foreign Disclosure Support:** Our personnel provided Foreign Disclosure Support for U.S. and Coalition Forces during Operation Enduring Freedom November 2001 through November 2002, and to the United States Special Operations Command (USSOCOM) and the Office of the Secretary of Defense (OSD) since 2001.

**Intelligence Support:** We provide intelligence analysis and Special Operations support in any environment with employees deployed worldwide in support of national security, including the Global War on Terror in Iraq and Afghanistan. Our Analysts prepare all-source intelligence products to support the combat commander, support to the Intelligence, Surveillance, and Reconnaissance (ISR) Synchronization process, receive and process incoming reports and messages, assist in determining the significance and reliability of incoming information, establish and maintain systematic, cross-reference

intelligence records and files, integrate incoming information with current intelligence holdings and prepare and maintain graphics, and conduct IPB using information from all sources.

**Mobile Training Teams:** Our personnel are experienced in providing highly effective training to US and foreign military organizations in combating transnational terrorism, Counter-Terrorism operations, and Maritime operations (surface and subsurface), in support of Department of Defense security initiatives, and other US Government agencies, and can be rapidly deployable worldwide. Subject areas include: weapons training, anti-terrorism/force protection, small boat operations and tactics, maritime combat operations, maintenance and construction, and officer and non-commissioned officer professional development and leadership. We are also capable of providing non-standard training, such as running ranges, foreign weapons familiarization, and field training refreshers to support Component Commanders.

**Operational Support:** Our operations support personnel possess knowledge spanning all aspects of Special Operations support. Our support includes daily business operations, information operations, psychological operations, joint operation center support, joint mission analysis, advanced technology programs, readiness support, intelligence, special projects and operations and training.

**Pre-Deployment Training:** We provide realistic, operational based pre-deployment training for all forces deploying into any environment. We give deploying forces the tools required to deploy, conduct successful operations, and return home safely. Additionally, we can provide follow-on training at forward deployed areas as the operational picture evolves and requirements change.

**Logistical Support Services:** Weatherford Group provides logistics operations support, including receiving, screening, storage, inventory management, cataloguing, processing, data entry, and, distribution and disposal services of Agency assets. We can provide Reception, Staging and Onward Movement (RSO) and receive, store, issue and provide accountability of supplies and equipment and to provide services both CONUS and OCONUS.

**Protective Services:** Our personnel have provided protection to the full spectrum of individuals from corporate executives to the President and US and foreign dignitaries in all environments around the world. We tailor our services to meet our clients' specific needs and requirements.

**Vulnerability Assessments:** Our personnel have experience providing Vulnerability Assessments for the US Department of State and Department of Defense buildings and compounds located in high threat areas. Our Vulnerability Assessment methodology identifies and assesses potential security threats, risks, and vulnerabilities and guides in making security improvements. We can also provide evacuation and rescue planning. In addition, we provide "Red Teams" to test clients' existing procedures, systems and security.

**Force Protection Operations Services:** Weatherford Group personnel have performed Force Protection (FP) threat assessments, advising and coordinating anti-terrorism (AT) and force protection (AT/FP) policies and programs; assisted in operational and theater-level FP technology system planning and coordination; assisted with theater-level FP training initiatives and requirements, accomplished operational and strategic-level support functions to U.S. forces conducting the full-spectrum counter-insurgency mission. We have provided support in the development of technical and analytical tools; policy development support, management, and administration; and improvement of operation of systems supporting the mission. We have provided direction and guidance for the implementation of all Force Protection standards, policies and technology programs in order to protect Department of Defense (DoD) personnel, facilities, and contractors that are assigned, attached, in transit, or otherwise physically located within the Overseas Theater of Operations such as Afghanistan.

### **Flexible and Prepared**

In summary, **Weatherford Group, Inc.** provides specialized personnel, services and training, in-country project support, and dedicated corporate leadership. Our team members are professional veterans, our deployments seamless, and company reach-back support unwavering. The support and experience our clients receive enables them to conduct business with ease of mind.
